4. december 2013

To the Central Committee of KKE

Dear comrades

On the occasion of the 95th anniversary of the founding of the Communist Party of Greece, KKE, we convey our full solidarity with your party's aim of defending the gains of the working class and people.

We recognize KKE's efforts to resist the reactionary forces during times of hardship, such as the fascist occupation during the Second World War, the subsequent imperialist military intervention, fascist dictatorship as well as these years' austerity regime of the EU.

Internationally, we highly appreciate KKE's leading role in ensuring the continuity and unity of the World Communist Movement after the European Counterrevolution, by generously hosting several International Meetings of Communist and Workers' Parties.

We wish that you will have a successful political event, and hope that we can further strengthen the fraternal relations and cooperation between our two parties in the future, based on the principle of mutual respect, solidarity and non-interference.

Long live international solidarity

With comradely greetings

Jacob Jensen,

International Secretary,

The Central Committee of the Communist Party of Denmark (DKP)
